THE Directors have pleasure, in stating, that they are prepared to entertain proposals on nearly every description of Property in most parts of the world.

The Company will ever distinguish itself in its promptitude and liberality in the settlement of claims.

The importance of the subject of insurance being now more fully understood and appreciated, it becomes indispensably necessary that every Company which undertakes to replace the loss occasioned by Fire should be enabled to show its undoubted ability to perform its engagements. As ample evidence of the standing and position of the MERCANTILE FIRE INSURANCE COMPANY, it may be stated that its subscribed capital is

Two millions Sterling

and that the capital already paid up and invested amounts to

Two Hundred Thousand Pounds.

THIS Company has been projected to acquire and work important mineral and other rights in the district of Singhbhoom, on the South West frontier of Bengal and to purchase the existing buildings, machinery and plant already erected for the purpose of raising and smelting Copper ore.

These rights extend over an area of about *eight hundred square miles*, the mineral portion containing a belt of mountainous country 50 miles long by 16 broad and embrace all the old Copper Mines formerly superficially worked by natives as well as new ones lately opened up.

The principal site of the mines is between Baden and Jamjori, a distance of about thirty miles, lying N. W. and S. E., and situated on the western bank of the Soobunreeka. The whole chain of hills in this district (within 140 miles of Calcutta) abounds in copper ore, samples of which, and of copper plates smelted in India and in this country, can be seen at the Company's offices.

The Land in Singhbhoom is held under perpetual Leases granted by the Rajah of that District to the Vendor, and by him transferred to the Company, or by an underlease from the Vendor himself, at the Company's option. The Company have agreed to purchase the whole of the rights of the present owners, with the plant, machinery, &c., now on the Property, for the sum of £40,000, and a royalty of 2s. 6d. per ton on the ore sold, or £4 per ton on the copper smelted. The purchase money will be £16,000 in Cash, £10,000 in fully paid-up Shares, and £20,000 in Shares or cash, at the option of the Company; the Directors having six months to declare their option. Possession of the Property has already been given, and there is a gentleman on the ground at present superintending the preparation of ore, fuel, &c., for commencing operations.

The Title Deeds of the Property have been duly examined by Solicitors of high standing in Calcutta, and declared perfectly in order.

The present returns of the Copper Country are a number of small mountain ranges intersected by streams, and plains, spotted with small villages. A number of old native workings exist at the outcrops of the hills, but no deep shafts have yet been sunk to test the value of these deposits. The old working may be traced along the different ranges of hills to the extent, in length, of nearly 100 miles.

The Copper smelting works are situated in Dolbhoom about 30 miles East of Chaibassa, and from the town of Midnapore nearly due West about 65 miles. There is a range of hills, from 800 to 1000 feet above the plain, in the immediate vicinity, and the river Garuru forcing its way through these mountains discharges its waters into the Soobunreeka, only about 3 miles distant. The Garuru river contains water the whole year round, and near the works where the river passes through the range of mountains already mentioned, it forms a number of falls, thus affording an opportunity for applying the water power by means of wheels and turbines.

Two most competent Smelters have been sent out to the Works with full instructions to commence smelting immediately. An experienced under ground Captain and a Mine Carpenter have also been sent out with orders to lose no time in getting the Mines, in Landoo and Jamjori, into actively producing state. Those mines which were lately opened, gave ores averaging from 18 to 25 per cent. Full reports on the samples of ore assaying are given in the detailed Prospectus.

The cost of raising, smelting, and carriage to Calcutta, of Copper from the Mines is calculated at £88 to £40 per ton, and this allows a margin for contingent expenses.

The average percentage of profit for the first two or three years is reckoned at 15 to 20 per cent., but it is confidently expected that in a few years the dividend will reach much higher figures.

A pendorah luminous Shale having already been taken up, only a small proportion is received for the Bombay Presidency.

Applications for Shares must be accompanied by a Deposit of Co.'s Rs. 10 per Share.

Prospectuses and Forms of Application may be had by applying to Messrs. GILLANDERS, ARBUTHNOT, & Co., in Bombay, to

ADVANTAGES OFFERED BY THIS SOCIETY.

THE profits are declared in each year, on the second Wednesday in May in each and after which date all persons assured for the whole term of life on the participating scale, and on whose Policies six complete annual or twelve complete half yearly original premiums have been paid, are entitled to participate in the profits of succeeding years in either of the modes provided by the Deed of Settlement, viz., either by a reduction of the annual or half-yearly premiums for the current year as they fall due, or an equivalent addition to the sum assured by way of a bonus. Each assurer, on his first becoming entitled to participate in the profits, has the option of selecting either of the foregoing methods, and three months from the date of declaration of the profits is allowed for his making that selection, which, however, when once determined on, cannot be altered in after years.

2.—One fifth of the ascertained profits of the five past years is divided between the Policyholders and Shareholders—three-fourths to the former, and one-fourth to the latter; the remaining four-fifths are set apart to enter into the average to be struck on the next succeeding year.

3.—The following table will show the operation of the reduction allowed by the division of profits for 1860 which is equivalent to 45 per cent. on the current annual premium of all policies entitled to participation:—

Age next birth-day when Policy was issued.	Date of Policy previous to the 2nd day of Wednesday in May.	Sum assured.	Original Premium.	Reduction.	Annual Premium to be paid hereafter.
		Co.'s Rs.	Rs.	Rs. a. p.	Rs. a. p.
20	May 1855	10,000	420	189 0 0	231 0 0
30	,,	10,000	490	216 0 0	264 0 0
40	,,	10,000	590	265 8 0	324 8 0
50	,,	10,000	740	333 0 0	407 0 0
60	,,	10,000	1,030	463 8 0	566 8 0

4.—From the foregoing explanations it will be seen that the benefits arising from a participation in the profits are actually experienced (when a reduction of the premium is selected) at the periods when the seventh annual, or thirteenth and fourteenth half-yearly premiums fall due. In the case, however, of a Bonus to the sum assured being selected, an equivalent sum will be added to the policy for the current year, being such an amount as the reduction in the premium would purchase as a single payment.

5.—Separate tables for assurances without participation in profits, both Civil and Military, have been adopted as the *whole of Life* at reduced rates, for such persons as may prefer a lower rate of premium to participation in the general profits.

6.—The Directors have recently determined on permitting the issue of Policies in India for the whole term of Life on the non-participating scale, on the principle of receiving the premiums monthly, these Policies however, are to be granted on certain conditions, viz., that on the first issue of the Policy six months premium shall be paid in advance, and thenceforth monthly, and that in the event of persons assured returning to Europe, the monthly payments will cease, and the premium be payable at the English rates in advance yearly. And although the Board will allow 30 days grace on Policies paying monthly premiums, yet it is to be clearly understood that if these days of grace be exceeded, the Policy will be absolutely forfeited, and cannot be renewed under any circumstances whatever. It is also determined that in no case will an assurance be granted beyond the age of 60.

7.—In all cases of reduction to the English rates, the Policies are to be subject to all the regulations and conditions affecting English Policies.

8.—When application is made for assuring a life subject to more than ordinary hazard, an augmented premium will be charged proportionate to the increased risk, the rate of which will be regulated by the strictest attention to justice between the Society and the Assured, according to circumstances.

9.—On the return of persons (whose lives have been insured at Indian rates) to Europe, either for a temporary or permanent residence, and without reference to the state of health, they will be entitled to have their future premium reduced to the English rates, corresponding with the age at which the Assurance was first effected, after they shall have given at the Head Office in London notice in writing of their arrival, and such reduction shall commence with the payment of the first Premium, which shall become due next after the receipt of such written notice. Their Policies must be forwarded to the Office, to receive an endorsement, prohibiting their departure from Europe without the previous written consent of the Directors, and all such Assurances will be void if the parties whose lives have been assured shall go beyond the limits of Europe unless the said permission shall have been first obtained, and such premium paid, as in the opinion of the Directors will correspond with the extra risk incurred.

When parties assured at the Indian rates return to England, they are required to give notice in writing of their arrival, at the office in London, and in no case will their Premiums be reduced to the English rates until they next fall due after the receipt of such written notice.

In the case of participating Policies, the profits are allowed on the English rate of Premium, whereas Indian assurers can continue their Policies in England on most favorable terms.

Parties assured in Rupees in India may determine on paying their future Premiums in England, will be required to pay them at the fixed rate of exchange of 2s. per Rupee; and in the event of such Assurance becoming a claim payable in England, the sum assured will be paid at the same fixed rate of exchange of 2s. per Rupee.

10.—The parent Institution being in London, with a similar establishment in Calcutta for granting Policies, Premiums, as well as claims, are payable in either country at the option of the Policy holder. The appointment of Sub-committees at Madras and Bombay with power to grant Policies, after the similar fashion to persons residing at either of the sister Presidencies.

11. All Policies becoming claims on the Society, will be discharged within three months after satisfactory proof of the death and cause of death of the assured shall have been furnished to the Directors either in London or Calcutta.

12.—The Directors of the Indian Branch of the Society are empowered to treat for the purchase of Policies, for the whole term of life on which premium shall have been paid for a period of not less than five years, or to advance, if required, on such Policies, by way of Loan, two-thirds of the estimated value.

13.—Medical References are remunerated by the Society by a fee of *Sixteen Rupees* on proposals for assurance *not under Co.'s Rs.* 2,500:—but for any less sum the fee to be settled by the Applicant.

14.—Tables, Blank Forms, and other particulars requisite to enable persons to effect assurances, may be had on application to the Agents.

The rates of Premium on Term Policies, and Assurances for the whole of life without participation, are now reduced, by order of the London Board, Twenty per cent., and will be found below those of any other office in India.

For Assurance for the whole Term of Life with participation in the profits of the Society, the rates remain unaltered, but the reduction after the expiration of six years has hitherto amounted upon an average Fifty per cent. upon the original charge, and the success of the Universal leads the Directors to hope that the prospective results will be still more satisfactory.

ABRIDGED PROSPECTUS.

THE objects of this Association are:—

1. To purchase freehold lands in India, as now offered by Government for the first time, at an upset price of 5s. per acre for waste land, and 10s. for cleared lands.

2. To advance money on mortgage or otherwise, to assist parties in purchasing or in promoting the cultivation of estates.

3. To act as agents in India for capitalists and non-resident proprietors, in the investment of monies, collection of rents, or other trust and agency business.

The advantages which the Association presents are:—

1. The large profits accruing from the transactions in land, with a high rate of interest upon mortgage, and commissions on agency operations.

2. The additional interest derived on capital borrowedin on guaranteed debentures and lent out by the Association in this country.

3. The limited liability of shareholders to the amount of the shares held.

The Scottish Australian Land Company, whose shares stand at 40 per cent. premium,

tal under the passport system, instead of, as heretofore, in the capacity of guests of the Legation. Access to Peking is open for the season, the ice having broken up in the latter part of February. Mr. John Gibson has been appointed British Vice-Consul at Taku.

From the three Northern Ports, we have no particular news; but now that communication is reopened, we may expect intelligence in due course.

At Hankow and Kiu-kiang, ports on the Yang-tsze River, the disaffection of the Imperial troops towards Foreigners still continues. Hitherto the residents have not actively resented any of the insults offered to them, and in this respect their conduct is entitled to admiration. By all accounts, Hankow promises to become a very useful and thriving port for trade. We would call attention to a correspondent's views on the Taiping question, which follows this Summary of news.

At Nanking, the Emperor's forces have been making their appearance on the bank of the river opposite to the city; they still continue to increase in numbers, and the Insurgents are strengthening their forces in the city in a corresponding degree. A concentration of the Rebel forces at Nanking may relieve Shanghae of their presence, and prepare the way for a decisive blow being struck if circumstances demand it.

From Shanghae, we learn that the crowded state of the City and Settlement still continues. The Shanghae Steam Navigation Company has just been inaugurated; its object is to furnish a fleet of steamers for the Yangtsze, and, probably, the coasts of China and Japan. It originated, says "our northern contemporary, with Messrs. Russell and Co., who remain its agents. The *Imperieuse* is refitting, and a belief exists that she may soon return to England.

At Ningpo, matters remain quiet. There is still some considerable traffic between this port and Shanghae, it has been affirmed that the steamer *Feimz*, which has changed owners, is to be used for goods and passenger traffic between the two ports.

From the other ports on the coast we have no news.

At Canton, everything is quiet. An army of Imperialist troops is getting ready for the protection of the Fuhkien province; this is equivalent to the protection of Kwangtung, as the enemy will not invade it if successfully met in Fuhkien; in other circumstances the Rebels will continue to subsist, as they have done, by the devastation and plunder of successive provinces.

From Macao, there is not often any news of interest. The place is very much in favour here as affording change of air and scenery. Camoens the Poet has in some degree consecrated Macao, and given it an interest in the eyes of visitors of every nation. Unlike the neglect that too often dooms to decay the haunts of great men in England, and which nearly brought Shakespeare's birth-place to the hammer recently, the Grotto of Camoens has been preserved by an eminent Portuguese family, of whom the present representative is Mr. L. Marques, Procurador of Macao. The gardens, though private property, are always open to visitors; some contemplated improvements will be found noticed in another column.

In Hongkong, the Volunteer movement continues to maintain itself in favour. The following gentlemen have been gazetted as officers:—Captain F. Brine, R. E., to be Commandant; William Kane, Esquire, to be Captain; Richard Beckwith Baker, Esq., to be 1st Lieutenant; John Fraser, Esq., to be 1st Lieutenant; John Dood, Esq., to be 2d Lieutenant. Lady Franklin is here just now, *en route* for Europe; she has visited the Sandwich Islands, California, and Shanghae.

Among old residents in China who return home by the present mail is Mr. John C. Couper, well-known as an enterprising marine engineer and ship-builder, who constructed, for general use, the granite dock at Whampoa, and furnished it with all the most modern appliances.

Among the military changes that are frequently occuring, we observe the departure, by the present mail, of Mr. J. C. Rowland, whose stay in China, as Military Store-keeper, has exceeded seven years. Mr. Rowland has been long in the service, and holds the relative rank of Lieutenant-Colonel. During his stay in China he has fully acquired and deserved the esteem of the various classes of foreign residents with whom either duty or pleasure has brought him into contact. He leaves this colony universally respected.

There is little more of interest to record. Cricket still continues in favour, although the weather is getting warmer. The hot months have not set in yet.

SHANGHAE NEWS.

THE *North-China Herald*, just received, contains a few important items of news with regard to our movements against the Rebels. There is a kind of warfare going on between them and the Allies, which is far from satisfactory according to our notions of fighting. Nothing in the least approaching a decisive battle can be obtained, and all that is being done is simply to scare those people away, without any permanent security against their return as soon as the Allies' backs are turned. Admiral Hope has been wounded in the leg, but not, as it seems, seriously. Our position with regard to the Insurgents has been taken up beyond the possibility of withdrawal, and when the truth comes to be known, it will be found that we have acted for the best. The offensive behaviour our towards foreigners, manifested by the braves at Kiu-kiang and Hankow, is still a subject of complaint by the residents at these places, according to our contemporary's information. Our own letters from Hankow, dated 16th March, contain no allusion to the matter. The Imperial mind at Peking is most favourably disposed towards the Allies at present, and they are very kindly patted on the back in the Gazette decrees. A meeting of Land-renters had been held at Shanghae, and it has been shown that the settlement is flourishing in an amazing manner. Unless it be to draw a salary, and give receptions, and lift our hats to, the advantages of a Governor are of a very doubtful kind, if one may judge by the way they manage matters at Shanghae.—*Id.*

COMMERCIAL SUMMARY.

THE *Emeu* arrived on the 11th with the London Mails of 26th February.

Neither in Imports nor Exports has there been much business done during the fortnight,—in the latter it has been almost confined exclusively to the shipment of Teas on hand.

LOCAL.

WE are sorry to find that in consequence of the indisposition of Miss E. Grattan, her second appearance in the "Lady of Lyons" is postponed until further notice. We trust that the lovers of the Drama will not long be deprived of the pleasure of again witnessing this lady's admirable performance in the above play, which we hear, will probably be honored by the presence of His Excellency the Governor.

THE ICE FACTORY, GIRGAUM.—We suppose that the Works which have been for some time in progress at Girgaum, for the manufacture of Ice by Machinery, are advancing towards completion, as an application has been made by Mr. Edwin Heycock, to the Municipal Commissioners for an immediate supply of Vehar Water to be laid on the premises. It will be some considerable advantage to the public, when the company get their Machinery into work; so that a larger supply of that very useful and necessary article, Ice, may be brought into the market.

IN consequence of the very great inconvenience and annoyance experienced by the residents in Grant Buildings from the accumulation of Cotton on the landing in front of the buildings, an attempt was made last year to remedy the inconvenience by constructing a tram-way by which it was proposed to remove in trucks the Cotton *as landed* to the grounds where it is to be stored. After the construction of the tram-way and the necessary trucks at the enormous expense, we are informed, of nearly one lac of Rupees, the plan proved a failure, owing to the Cotton being landed more rapidly than it could be conveyed away; and this season the residents in Grant Buildings are suffering, if possible, more inconvenience than they have ever done. The nuisance is becoming intolerable. The Cotton is being laid up to the very doors of the buildings, leaving scarcely sufficient space for pedestrians, and certainly not half enough for carriages. We do not exaggerate when we state this, for we actually measured the space the other evening, and in front of No. 2, there was only a passage of 8 feet left. This was at night, when the day's work was over. During the day the whole passage from Nos. 1 to 8 is so blocked up that it is dangerous for the residents to attempt leaving or going to their homes. Access to, or egress from the buildings in a conveyance, is simply an impossibility. Surely such a state of things ought not to be permitted. What is the Secretary of the Company that owns the Grant Buildings doing? why does he not adopt measures to prevent the bales of cotton being placed beyond the boundary marks or limits put up by his energetic predecessor? are questions continually asked by the residents. If this gentleman only knew the invidious comparisons that are being made between him and his predecessor, and if he were only made aware of the blessings that are being heaped upon his devoted head by the residents in the buildings, especially by the young ladies, (he is a bachelor we believe), he would, we think, bestir himself and not be so neglectful of his duty. It is surely a dereliction of duty on his part to permit the space in front of the buildings to be so much encroached upon as not to leave sufficient room for conveyances to pass and repass. If his predecessor limited the placing of cotton within the marks set up, he should do the same, and thus prevent the accumulation of cotton up to the very doors of the buildings. We would call his immediate attention to the subject, so that he may at once adopt the necessary measures to remedy the evil complained of. If he finds he is unable to do so, let him lay the matter before the Directors of the Company, who will surely be able to devise some means for the relief of the residents in Grant Buildings from an inconvenience, from an annoyance, and from a nuisance, that has become unbearable.

While on this subject, we would call the attention of the authorities to the state of Marine Street in the Fort, which is now blocked up with Cotton. The public are being seriously inconvenienced thereby, and as the law can now reach the aggressors, they should be taught that they can not with impunity cause inconvenience to the public for their special benefit. The infliction by the Magistrate of a few heavy fines would have the desired effect, and would soon prevent the public streets being converted into a godown for cotton.

TESTIMONIAL TO DR. HARKNESS.

To JOHN HARKNESS, Esq.

Principal of the Elphinstone College, Bombay.

SIR,—In accordance with "Resolution" 2 on the other leaf of this, I have the honor to forward to you the annexed Copy of the Proceedings of a Meeting of the Trustees of the Elphinstone Funds held on the 21st instant.—I have the honor, &c.

(Signed) HENRY J. CARTER,
Secretary.

Elphinstone Institution, Bombay, 22d April 1862.

Copy of the Proceedings of a Meeting of the Trustees of the Elphinstone Funds, held on Monday the 21st April 1862.

"The Trustees of the Elphinstone Funds having met to record their appreciation of Dr. Harkness's services during the time he has been connected with the Educational Department in Bombay, passed the following Resolutions:—

RESOLUTION I.—That the Trustees of the Elphinstone Funds, feeling under great obligation to Dr Harkness for the services he has rendered to Education for upwards of the last 25 years in which he has been Professor and Principal of the Elphinstone Institution and College, and latterly of the College alone, do hereby record their entire satisfaction with the course he has pursued; their admiration of the effect his exertions in behalf of education have produced; their consciousness of his deep and valuable learning, especially in the vernacular languages of this Presidency; his honor and his integrity; and, finally, their great regret that the state of his health should compel him to leave that sphere of usefulness in which he has obtained for himself the lasting gratitude of the natives of Western India.

RESOLUTION II.—That a copy of these proceedings be communicated to Dr. Harkness."

No. 64 OF 1862.

To H. J. CARTER, Esq.,
Secretary to the Trustees of the Elphinstone Funds.

Elphinstone College, Bombay, 24th April 1862.

SIR,—I have the honor to acknowledge the receipt of your letter No. 18, dated the 22nd inst., forwarding a copy of the Resolution passed at a meeting of the Trustees of the Elphinstone Funds held on Monday the 21st instant.

2. The partiality of friendship has caused my merits to be greatly overrated, I fear. At least I know that the results have fallen short of my expectation; still it must be owned that it is very gratifying to know that these gentlemen entertain such a favourable opinion of the service I have rendered to education in this Presidency. An opinion all the more valuable, because from the position which some of them have occupied, as members of the Elphinstone College Council, Members of the Board of Education, and Trustees of the Elphinstone Funds, they have been officially cognizant of my conduct during the whole of the time I have been in Bombay. It is, therefore, a source of no small satisfaction to be assured on the eve of my departure, that it has been deemed not unworthy of their commendation; the commendation of those best acquainted with the circumstances,—gentlemen who have taken the lead in every scheme, calculated to promote the cause of native education; and who have not only devoted their energies, but have also freely contributed their money to further its advancement.

3. I beg you will be kind enough to convey to these gentlemen, my best thanks for the testimony of their approval of my conduct, in connection with the Institution, of the Funds of which they are the Trustees; for their generous support and encouragement during the whole period of my service, and for their kindly expression of regret at my departure.—I have, &c.,

(Signed) JOHN HARKNESS,
Principal.

BOMBAY POLICE INTELLIGENCE.

FORT POLICE OFFICE.

Wednesday, 7th May 1862.

(BEFORE W. CRAWFORD, ESQ.)

BREACH OF TRUST.—An application was made on Monday last to the Senior Magistrate, for a warrant for the apprehension of a man of the name of *Jetta Leladhur* on the information of Syed Saltum bin Allee.

Mr. Verrat, Solicitor, appeared on behalf of the prosecutor.

Syed Saltum bin Allee laid the following information.—On the 25th day of February last, I was and had been for sometime previously thereto residing with my brother Syed Mahomed Allee; who had a cash-keeper in his employ of the name of Jetta Leladhur. When so residing with my brother, I on five or six different occasions deposited with the said Jetta Leladhur the sum of five thousand rupees in Bank notes to be returned to me on the following day. That on the following day upon enquiry I found that Jetta Leladhur had absconded from Bombay, and I have not up to this time been able to recover from him my five thousand rupees. Early in the month of March, I despatched my servant named Rhoodar Ahdoola in search of Jetta Leladhur, and about seven or eight days ago the servant returned to Bombay, and told me that he had found the said Jetta Leladhur at Kutch Mandavie, and that my brother had caused him (Jetta Leladhur) to be apprehended upon a charge brought against him by my brother, and that he was still in custody when my servant left.

Mr. Verrat stated that Jetta Leladhur had been in the employment of his client's brother as cash-keeper, and that he had absconded with a large sum of money belonging to him, amounting to between thirty and forty thousand rupees, besides the five thousand rupees belonging to his client.

HIS WORSHIP granted the warrant.

THE MURDER CASE.—The prisoner *Shaik Ahmed bin Shaik Ibrahim*, was again placed at the bar. After the examination of the witnesses who gave their evidence at the Coroner's inquest, the following additional evidence was taken.

Calloo Suckerjee, Police sepoy No. 868 said,—I do duty in Chuckla. About 7 o'clock in the morning of the 1st of May instant I heard a cry of murder coming from the house of Sherefa, now deceased. I went up stairs and saw Mamoola lying down on the staircase. I was examining her when Police Duffedar No. 19, Bilajee Sunkrajee came; at that time I saw that Mamoola was dead. The Duffedar and I then went into Sherefa's room. The Duffedar and I then went into Sherefa's room.

Balajee Sunkrajee said,—I am a Police Duffedar No. 19; and do duty in Chuckla. On Thursday the 1st instant about half past 7 o'clock in the morning, I heard a cry of murder proceeding from the house of Mamoola deceased. On going up stairs I saw Calloo Suckerjee the Police sepoy there. I saw the body of Mamoola under the staircase. She was quite dead. I did not at the time examine the body to see where the wound was. I found the knife with drops of fresh blood on the blade, now produced, on the ground near the cot on which Sherefa was lying. I then took the knife in my hand and went down stairs. I have kept the knife up to the present time.

At the conclusion of the evidence of the two last witnesses and in the absence of Dr. Haines, the investigation in this case was adjourned.

The evidence in the other case, of the murder of Sherefa, was then gone into, and several witnesses were examined, whose evidence was the same as given before the Coroner. When towards the conclusion of the evidence of Balajee Sunkrajee, where the witness said, "that he found a jacket on the rail of the bed." The prisoner here said "that he had an umbrella on the cot."

HIS WORSHIP remanded the prisoner until Friday, when the case will be resumed.

ASSAULT.—*John Samuels*, a seaman, belonging to the ship *Themis*, was summoned at the instance of William Wells, another seaman of the same ship.

Complainant said.—This gentleman, I mean this seaman, struck me on board the ship on Friday morning last. He struck me with a rope several times across the face and eyes. I was growling at the time about the soup, when he said that if I did not shut up he would strike me. I replied that if he did he might get something that he would not like. He then struck me several blows on the face and well nigh murdered me.

John Ritson, seaman, belonging to the same ship, said.—On Friday morning last the complainant made some remarks about the soup, when the defendant struck him on the eye. He was laid up for two days. The defendant struck him several blows.

Defendant said.—All I have to say is, that I did strike him; but he gave me a good deal of cheek first. I was very sorry afterwards for having done so. I should not have done it had he not aggravated me and dared me to strike him.

HIS WORSHIP.—I fine you ten rupees; and the complainant is to receive seven rupees out of the fine.

CHARGE OF UTTERING A FORGED BANK OF BOMBAY NOTE FOR RS. 1,000.—*Shamjee Chuttoo* a Bhattia was charged with having forged a Bank of Bombay note for Rs. 1,000 on the 5th instant.

Harry Vallub Babajee said.—I am a writer to Pestonjee Ardaseer, broker. I had the key of the cash box at half past 8 o'clock. I did not take the note out of the prisoner's hand.

Damodhar Purshotum said.—I am a Shroff. Yesterday the last witness brought prisoner to my shop. The prisoner showed me this note (produced) saying, it was for one thousand rupees. I looked at it; and took it in my hand. I did not think it was a good one. Twenty-five persons examined it and objected to it. The last witness saw the note in my hand.

HIS WORSHIP admitted the prisoner to bail on his procuring satisfactory securities for his appearance when called upon. In the meantime the Bank authorities would be communicated with.

LAW.

SMALL CAUSE COURT.

Wednesday, 7th May 1862.

(BEFORE N. SPENCER, ESQ.)

Chutturbhooj Jeyram vs. Mooljee Odowjee.

Mr. Barton appeared for the plaintiff.

Mr. Sangster, for the defendant.

The plaintiff sought to recover damages to the amount of Rs. 240 for loss alleged to have been sustained by him by reason of the defendant's refusal to deliver six bales of gin cloth which the latter had contracted to sell to him. The agreement which was in writing was produced in Court. It was entered in the defendant's book, and signed by the plaintiff, who thereby undertook to purchase three whole bales and three broken or loose bales of gin cloth within 15 days from the date of the agreement. Plaintiff on being sworn admitted his signature to the document but repudiated the contract about the broken bales, which clause, he said, was inserted subsequently to his signing the agreement and without his consent. There was no price mentioned in the agreement, and he estimated the damages by the difference between the market price and the price orally fixed upon by himself and the defendant.

Mr. Sangster hereupon asked the Court to nonsuit the plaintiff, on the ground that there was no mention made of the price in the agreement, which is one of the essentials of a contract of sale, and without which it was impossible that any damages could be estimated.

Mr. Barton said he was ready to elect a nonsuit, provided the defendant did also in the cross-action which he had filed against the plaintiff. The defendant who sued on the same agreement was in a similar difficulty, and the contract must be taken void as against both the parties.

The plaintiff and defendant than severally elected nonsuit, the Court certifying for costs.

Hunsraj Visram vs. *Eduljee Rustomjee and Jeevunbye, widow.*

Mr. Barton for the plaintiff.

Mr. Nesserwanjee for the second defendant.

This action was brought to recover Rs. 500 due on a promissory note dated 21st August 1861, alleged to have been passed by the defendants, who are son and mother, to the plaintiff, a grain-dealer. The widow denied the debt and the signature to the note. Plaintiff and another witness affirmed that the note was passed by both the defendants, the widow putting her bangle mark, and the son signing his own name. The first defendant on being sworn admitted the note, as well as his signature; and asserted that his mother was no party to the transaction, he himself having written her name and put her bangle mark. He also said that his mother was in mourning at the time the note was passed, on account of her husband's death, that she never left the house for a year, and that therefore she could not have gone to the plaintiff's shop to put her mark to the note. Defendant having admitted the debt, the Court entired a verdict in favour of the plaintiff, and certified for costs.

INDIAN.

SIND.

THE FINALE OF THE HYDRABAD TRAGEDY.—We learn from Hydrabad that the Police Sepoy who was apprehended for the murder of his wife and sister-in-law, succeeded in putting an end to his own life at about 1 P. M., Thursday, the 24th instant, under the following circumstances. He had been taken before Mr. Foxton, the Deputy Magistrate, for preliminary examination, and was being led out to be manacled, when, seeing the sword with which he had slain his victims, lying unsheathed in the hands of one of the guard, he suddenly seized it, and breaking away from his escort, rushed towards a neighbouring *nullah*. Seating himself in its bed, and turning his face towards Mecca, he cut his bowels open, and then drew the sword across his throat. He was found dead by the party who went in pursuit, but the Medical Officer declared that the desperado would have survived the wound in the abdomen, as the bowels, although protruding, were not injured, if he had not securely effected his destruction by cutting his throat.

We learn that while in the Magistrate's presence, he abused the latter grossly. The fellow's name was Rumzan and he belonged to the tribe of Esau. He is described as being about 35 years of age, 5 feet 9 inches in height, and of a dauntless expression of physiognomy.—*Our Paper (Kurrachee,) April* 29.

OVATION.—Sheik Goolam Hoosein, Khan Bahadoor, whose approaching departure for Tanna we announced the other day, did not take his leave of Kurrachee until last Friday. For several days before, his house was thronged by members of the native community, who came to congratulate him on his appointment and bid him farewell; on Friday several thousands assembled to witness his departure and he was followed to the Bunder by a concourse of at least five hundred persons, some mounted on camels, and others on horseback, lending the occasion the appearance of a triumphal procession. If the European portion of the inhabitants were not so demonstrative in their marks of respect for the Khan, he may rest assured that he enjoys none the less their esteem and good wishes for his success and happiness.

COCHIN.

WE are glad to announce that the second Pearl fishery at Tuticorin has realized the sum of 41,800 Rupees, which would have been lost to the Government this year had not the Superintendent paid a personal visit to the Banks, which led to the discovery that several of them had not been fished. The fishery for this season now realizes the amount of Rs. 1,30,400.—*Courier, April* 26.

MR. MALTBY left Cochin yesterday morning for the railway station at Shoorabour, en route to Madras. The Dewan of Travancore arrived here to take leave of Mr. Maltby previous to his departure.

It is supposed that Mr Fisher, will shortly present his credentials to His Highness the Rajah of Cochin, in Public Durbar, and then proceed to Trivandrum to go through the same ceremony at the Travancore Court.—*Id.*

WE have to record a fact which we believe has not been known here within the memory of the oldest inhabitant. On the morning of the 21st instant, the intense oppressiveness of the atmosphere, for several days previously, was relieved by a copious shower of rain, and rather severe thunder storm; during which, a heavy fall of hail occurred to the great amusement and surprise of many of the Native inhabitants, whose theory of this phenomenon differs strangely from our own. Some of the hail stones were of pretty large size, and notwithstanding vivid and dangerous flashes of lightning were playing over the Town, so great was the attraction caused by this novelty, that there was a general scramble, in the open grounds, to obtain some of it.

The thunder and hailstorm have considerably relieved the trying heat of the weather; and we have since been favored almost every evening with partial showers. We have seldom known the atmosphere charged with so much electricity as at this period; scarcely without interruption, flashes of lightning beginning at sunset, continue until dawn.—*Id.*

MARKET REPORT.—Our Oil market has shown a little more activity again, on account of some Mauritius orders having to be executed, and contractors seemed inclined to hold out for higher rates; but as these have now been pretty well arranged, prices have assumed their original level, and our previous quotation of Rs. 88 to 89 we allow to remain.

There is little doing in other porduce and prices are quite nominal.

FREIGHT.—The *Silistria* is now on the berth for London, and will have some room for measurement goods; the Oil tonnage has however been all engaged. For light freight, the quotation is £.

We have advices from Tinnevelly to the 19th Instant. The price of Cotton had slightly advanced, and about 2000 Candies had been contracted for with 4 months time to deliver in at Rs. 115 per Candy, and at that rate there were still buyers.

The *Larella* and *Dilegentia* were still loading. They will remove all that remains of last seasons crop.—*Id.*

CEYLON.

(From the Colombo Overland Observer, April 30)

WE are now in the midst of the true South West Monsoon weather—hot as yet but cloudy, with thunder, lightning and rain. The change is most welcome so far as reviving vegetation and allaying dust go; but, of course, those who have still Coffee to prepare and ship are placed at a disadvantage. The bulk of the Crop was off, however, before the rains began—a very different result to that which was obtained some eight or ten years ago,—when a very large proportion of the Coffee Crop was shipped after the South West Monsoon Rains had regularly set in. The earlier shipment is attended with many advantages. The Coffee not only gets earlier to market but arrives in a far superior condition. Indeed the prices now ruling, shew how much has been done for Ceylon Coffee, by care in preparing and despatching it.

In the past fortnight the additon to our exports has been considerable, as will be seen from the Memo. we append.

Six ships have sailed for London with—

Do. last year	289,595	82,301	374,196

The increase in Native over last Season will take most people rather by surprise, for in that particular kind more even than in Plantation, was a great deficiency anticipated.—We have still five months of the Season to run, and no one can now doubt that in that period we shall export at least the 80,000 cwts of both kinds wanted to make up the half million. The total exports in the four last Seasons ending 30th September were as follows:

Total 4 Seasons	1,701,197	662,823	2.364.020
Average do —	425,299	165.706	591,005

To make up last Season's figure—a very short one—for Native, we only require to ship 23,900 cwts., and this we can certainly calculate on. As regards Plantation the case is very different. To reach last Season's figure we should require to ship no less than 131,000 cwts.

We fancy we can scarcely count on more that 50,000 or 60,000 at the utmost. If the higher figure is reached our total export for the Season ending 30th September 1862 will stand,

Plantation	cwts.	387,000
Native	,,	135,000
Total cwts.		522,000

We do not think this will be far from the mark. These figures will be considerably below the averages of the past four Seasons, which have been as follows:—

Plantation	cwts.	425,299
Native	,,	165,706
Total cwts.		591,005

If our figures are realized, the out-turn of Season 1861-62 will be below the average thus

	Average.	1861-2.	Deficiency
Plantation	cwt. 425,000	cwt. 387,000	cwt. 38,000
Native	,, 165,000	,, 135,000	,, 30,000
Total deficiency		,,	68,000

or, say, a falling off of 9 per cent on Plantation; 18 per cent on Native; and about 11½ per cent on the whole Crop.

This will certainly be a far less unfavourable result than was in the early part of the Season anticipated.

If we are below the average this Season all the signs favour the supposition that "next year" we shall be far above it. We look for at least—

Plantation	cwts.	500,000
Native	,,	200,000
Total cwts.		700,000

Indeed we shall not be greatly surprised if 50,000 cwts. more bring us up to the three-quarters of a Million.—The distribution of our Crop to date has been as follows:—

Distribution of Coffee Crop exported from Ceylon, from 1st October 1861 to 28th April 1862.—

	Plantation.	Native.	Total.
London	313,208	97,495	410,703
Liverpool	2,522	1,469	3,991
Havre	2,154	8,148	10,302
Gibraltar	3,820	2,000	5,820
Sydney	2,303	975	3,278
Melbourne	3,202	1,387	4,589
Mauritius	,,	850	850
Total	327,209	112,324	439,533

It will be observed that but a small per-centage of our exports are now diverted from Britain which has got 414,000 out of the 439,000 cwts. already ex
